Professional Summary

Front-end Developer with 1+ year of experience building scalable and maintainable web applications using **React.js, Next.js, TypeScript, and modern JavaScript (ES6+).** Delivered 6+ projects across SaaS, healthcare, and business domains, with a focus on **clean code, accessibility (WCAG standards), and UI/UX excellence**. Experienced in Agile/Scrum collaboration, API integration, and using AI-powered tools (GitHub Copilot, ChatGPT) to accelerate development and testing. Committed to delivering high-performance, user-friendly applications that strengthen product quality and customer engagement.

Skills

FRONTEND

- **Strong Proficiency in** Advanced JavaScript (ES6+), DOM Manipulation, JavaScript Object Model, TypeScript
- **Thorough Understanding of** React.js, Next.js, React Native, JSX, Functional Components, Hooks, Custom Hooks, Class-Based Components, React Render under the Hood, React Router v6, React Design Patterns, Higher Order Components (HOCs), Styled Components, React Query, React Hook Form, Redux, Redux Toolkit, Context API, React Testing Library, Component Unit Testing, End-to-End Testing Libraries, Webpack Module Bundler, Build Optimization
- **Good Understanding of** Asynchronous Request Handling (async/await, Promises), Virtual DOM, Partial Page Updates, Reconciliation, RESTful APIs (JSON, Axios, Fetch API), Package Managers (NPM, NPX, Yarn), Version Control (Git & GitHub – branching, pull requests, repositories), Code Quality (SonarQube, ESLint, Prettier), Deployment (Vercel)
- **Proficient Understanding of** Web Markup & Styling HTML5, CSS3, SASS/SCSS, Tailwind CSS, Bootstrap 5, Material UI, GSAP, React Framer Motion, Responsive Design Principles, Cross-Browser Compatibility, Accessibility Standards (WCAG)
- **UI/UX & Design Tools** Figma (wireframe to React component conversion), Adobe Illustrator, Adobe Photoshop

Work Experience

Front-end Developer, AG InfoTech

Sep 2024 - Sep 2025
Islamabad, Pk - Hybrid

- Created 6+ projects across healthcare, SaaS, and business industries, ensuring scalable, responsive, and accessible web solutions.
- Built and deployed full-stack applications with React.js, Next.js, TypeScript, ensuring 100% code reusability through modular architecture.
- Improved sprint delivery timelines through Agile practices (Jira), contributing to faster release cycles and reduced backlog delays.
- Integrated RESTful APIs to enable real-time data sync, resulting in smoother user experiences and fewer data-related issues reported by QA.
- Recreated pixel-perfect UIs from Figma and static assets when no design files were provided, accelerating delivery and maintaining design consistency.
- Enhanced user engagement with advanced animations (Framer Motion, GSAP), leading to positive client feedback and repeat feature requests.
- Leveraged AI tools (GitHub Copilot, ChatGPT) to prototype features and debug faster, shortening development time for selected modules.
- Executed structured Git workflows (branching, pull requests, reviews), enabling error-free deployments and smoother team collaboration.
- Supported QA efforts, contributing to fewer post-release fixes and more stable production releases.

Front-end Intern, AG InfoTech

Jun 2024 - Aug 2024
Remote

- Completed 6 hands-on projects, including dynamic tables, job portals, and management systems
- Recognized for strong performance and offered a full-time role immediately after the internship
- Applied React.js and Next.js to create interactive applications
- Developed strong client communication skills by presenting work clearly and collaborating effectively with peers.
- Experimented with AI-assisted development tools, improving code efficiency and debugging processes

Network & Systems Intern, PTCL

Aug 2023 - Sep 2023

Rawalpindi, Pk - Onsite

- Assisted in CRM and tracking portal management used by 500+ employees, contributing to smoother workflows and faster internal task completion.
- Documented processes with engineers, improving reporting clarity and reducing escalation time by 10%.

Graphic Design Intern, PIMS

Sep 2022

Islamabad, Pk - Onsite

- Designed 5+ UI/UX layouts using Canva, Illustrator, Photoshop, and Figma, improving content quality and increasing adoption of digital templates within teams.

Educational Background

Bachelor of Software Engineering

Fatima Jinnah Women University, Rawalpindi

Sep 2020 - July 2024

Skills

BACK-END & API INTEGRATION

RESTful API Integration (Fetch, Axios, JSON handling, async/await), role-based access handling, C# (currently learning – expanding backend expertise)

VERSION CONTROL & COLLABORATION

Git, GitHub (repositories, branching, pull requests), Agile methodologies, Scrum practices, Jira, project tracking tools

AI & PRODUCTIVITY TOOLS

GitHub Copilot (AI-assisted code completion and debugging), ChatGPT (workflow optimization and learning), AI-powered testing and documentation support

TOOLS & PLATFORMS

VS Code, Figma, Postman, Visual Studio, Microsoft Azure, Microsoft Office Suite

PROFESSIONAL COMPETENCIES

Effective communication with clients and teams, Cross-functional collaboration with designers and backend developers, Analytical problem-solving and debugging, Adaptability and continuous learning, Project and time management
